Note 3):

These kits and solutions – ONLY - will contain the mounting plate(8000171-01 for x200/220/225/205) and mounting rail (431950 for other xSeries). The standard black SLR bare tape drives do **NOT** contain the mounting plate and mounting rail – these needs to be ordered separately for bare drives.

Note 4):

Limited availability per date. Require per date that Tandberg Data receives original rails from NEC or NEC reseller to modify and ship back.

Right side of drive; can use the original NEC mounting rail.

Left side of drive; the original mounting rail need to be modified.
