Table Notes

- 1) Administrator access is required to run SOS with Windows 8 and 10.
- 2) LTO-5/6 tape drives compatible with RHEL 6.0 through 6.8.
- 3) LTO-5/6 tape drives compatible with Mac OSX 10.7 through 10.12.
- 4) LTO-7 tape drives compatible with RHEL 6.7/6.8 and 7.1/7.2.
- 5) LTO-7 tape drives compatible with SUSE (SLES) 11 SP4.
- 6) LTO-7 tape drives compatible Mac OSX 10.10 and 10.11.
- 7) LTFS for Mac OSX requires OSXFUSE 2.8.3 and ICU 50.1.2 on Mac OS X.

Additional Notes

- 1) LTFS is compatible with nearly all SAS and FC controllers, however some compatibility issues have been found when using old/obsolete controllers.
- 2) LTFS software for Windows is not compatible with systems that have Apple iTunes installed. This is due to an iTunes driver issue, which prevents correct control of the tape device.
- 3) Please ensure the latest tape drive firmware are device drivers are installed.
