

Storage, Data Protection and Archiving

Thirty Years of Design and Manufacturing Excellence

We provide expertise and outstanding worldwide support along with a product portfolio ranging from disk-based solutions, deduplication software, tape drives, tape automation, and media for small and medium-sized organizations.

Data Protection Solutions

Our disk-based solutions protect and consolidate your data in compact storage systems.

BIZNAS™

- > Simple, fast reliable NAS storage
- > Cross-platform compatibility
- > Built-in data protection with RDX
- > Dropbox cloud storage management
- > Up to 16TB of expandable storage

New

ACCUVAULT™

- > Centralized, network-attached backup and disaster recovery
- > 20x deduplication
- > Simple agentless deployment
- > Desktop model with integrated RDX
- > 1U model with RAID & HA features

AccuGuard data protection software included.

Removable Disk Solutions

RDX® removable disk technology combines the durability and removability of tape with the random accessibility and performance of disk in a range of capacities.

RDX® QUIKSTOR™

- > Best of Disk and Tape in one product
- > Provides "set it and forget it" data protection
- > Shock-proof design, ruggedized cartridges
- > Ideal for backup, archive and data exchange
- > Disk-based speed and access

rdx QUIKSTOR™

rdx QUIKSTATION™

RDX® QUIKSTATION™

- > iSCSI Removable Disk Storage System
- > Emulates 10 configurable storage solutions
- > Up to 16TB online capacity with unlimited offline capacity
- > Ideal to centralize backup, archive and data exchange for virtualized and physical server environments

Tape Automation

Autoloaders to mid-range libraries are built on a legacy of leading innovation and cost-effective solutions.

STORAGELIBRARY™ T40+ AND ABOVE

- > Professional scalable tape library
- > Scales from 24 to 188 slots
- > Remote management & RPS
- > SAS & FC configurations

STORAGELIBRARY™ T24

- > Best value 2U tape library
- > 12/24 slots & remote management
- > SAS & FC configurations

STORAGELOADER™ LTO™

- > Entry-level 1U autoloader
- > 8 slots & remote management
- > FC, SAS & SCSI configurations

Drives and Media

Our drives and media are subject to stringent quality controls to provide the highest levels of reliability.

LTO DRIVE FEATURES

- > Industry standard for backup and archiving tasks
- > Capacities up to 6.25TB & performance up to 1.4 TB/hr
- > Internal, external or rackmount
- > SCSI, SAS & FC configurations
- > 256-bit AES encryption, WORM & LTFS
- > 3-year advance replacement warranty

DAT DRIVE FEATURES

- > Legacy tape format
- > Capacities up to 160GB

TAPE MEDIA FEATURES

- > LTO-2/3/4/5/6 & UCC
- > Barcode media & library pack
- > Low cost <\$0.02/GB
- > 30-year archival life

Tandberg Data media assures industry-leading performance and data security when used with our storage products.
